

DOHUI LEE

✉ Email: dohui.lee@kaist.ac.kr, LinkedIn: [DOHUI LEE](#) | [LinkedIn](#)

Education

- M.S.** Korea Advanced Institute of Science & Technology (KAIST)
Graduate School of Metaverse (GSMV)

(September 2024 - Present)
- B.S.** Seoul National University of Science and Education (SEOULTECH)
Majoring in Information Technology Management (ITM)
GPA: 4.40/4.5 | MAJOR GPA: 4.45/4.5

(March 2019 - February 2023)
- B.S.** University of Northumbria at NEWCASTLE
Information Technology Management, Dual degree with SEOULTECH

(March 2019 - February 2023)

Publication

International Journals & Conference

- Dohui Lee**, Qi Sun, and Sang Ho Yoon. HOICraft: In-Situ VLM-based Authoring Tool for Part-Level Hand-Object Interaction Design in VR. CHI (2026).

(2026)
- Dohui Lee**, Sohyun Won, Jiwon Kim, and Hyuk-Yoon Kwon. ARGo: augmented reality-based mobile Go stone collision game. Virtual Reality 28, 37 (2024).

(2024)

Domestic Journals & Conference

- Dohui Lee**, Jiwan Kim, Subin Park & Sangho Yoon (2025). EatMate: Promoting Healthy Eating Through Multimodal Sensing and Food Journaling, KCC.

(2025)
- Coulon Jina Jung, **Dohui Lee**, Philip Liu, Woontack Woo (2025). Proposal and Evaluation of a Metaverse Museum System Based on User-Generated Content and Collaboration, HCI Korea.

(2025)
- Dohui Lee**, & Hyuk-Yoon Kwon. Automata-based Collision Scenario Design to Prevent Continuous Collision Detection in Augmented Reality Go Stone Collision Game. KIISE Transactions on Computing Practices, 28(8), 413-420. (2022)

(2022)
- Min-Seon Kim, **Do-Hui Lee**, & Hyuk-Yoon Kwon. An Integrated Model for Bidirectional Sign Language Production and Translation. KCC (2022).

(2022)
- Do-Hui Lee**, & Hyuk-Yoon Kwon. Design of Collision Scenario of Augmented Reality-based Go Stone Collision Game Using Automata. Proceedings of the Korean Information Science Society Conference (2021).

(2021)

Experiences

Research Experience

- Human Centered Interactive Technologies Lab (HCI Tech Lab)

(September 2024 - Present)

- Research Area: Extended Reality, Multimodal Interaction, Generative AI
 - Advisor: Sang Ho Yoon, Associate Professor, Graduate School of Culture Technology
- Big Data Management and Application Laboratory (BIGBASE)

(March 2021 - December 2022)

- Research Area: Augmented Reality, Virtual Reality
 - Advisor: Hyuk-Yoon Kwon, Associate Professor, ITM Division, Dept. of Industrial Engineering

Work Experience

- PlayWithUs | Game Client Developer | Pangyo, Seongnam

(January 2023 - July 2024)

- Develop overall game system based on object-oriented design.
 - Develop multi-communication environment with PHOTON.
 - User Communication and Management
 - Release Biz And Town, Management Simulation Game in 2024

Others

- MSW SuperHackathon 2022

(September 2022 - November 2022)

- Hosted by Nexon & LikeLion
 - Develop a game based on MSW(Maple Story World) platform with LUA
 - Selected as a game developer & designer track, team leader (3 team members)
 - Certificate

Awards and Honors

<u>Scholarship</u> , Graduate Excellence Scholarship (National Scholarship), Korea Student Aid Foundation (KOSAF)	(2025-2026)
<u>Best Paper Presentation Award</u> in KCC	(2025)
<u>Summa Cum Laude</u> in College of Business and Technology (SEOULTECH)	(2023)
<u>Scholarship</u> , in ITM (SEOULTECH)	(2019-2022)
<u>Best Paper Presentation Award</u> in KSC	(2021)

Academic Services

• Reviewers	
• The ACM Conference on Human Factors in Computing Systems (CHI) Poster	(2026)
• The Proceedings of the Augmented Humans International Conference (AHs)	(2026)
• The European Association of Extended Reality International Conference (EuroXR)	(2025)
• Student Volunteer	
• World Haptics 2025	
• Teaching Assistants	
• Database Management, SeoulTech	(2021-2022)
• Computer Systems, SeoulTech	(2021-2022)
